

ZOUBIR Mohamed Akram

+213 796902422 lm_zoubir@esi.dz <https://www.linkedin.com/in/zoubir-mohamed-akram-a22a24267/>

Profile

Newly graduated Computer Science Engineer, specialized in Information Systems and Technologies, with hands-on experience in information systems audit, quality management, enterprise architecture, and ERP/CRM development. I am looking to bring these skills to companies or consulting and audit firms, contributing to concrete projects in governance, compliance, and information systems improvement. Rigorous and experienced in leading multidisciplinary teams, I aim to combine technical expertise with operational impact.

Skills

Languages	JavaScript/TypeScript, Python, Java, Kotlin, Dart, C, C++
ERP	Odoo
Web & Mobile Frameworks	Next.js, Django, Spring Boot, Flutter, Jetpack Compose, Firebase, Godot
Databases	Oracle, MongoDB, SQL, DB Modeling
Audit & Quality	RNAQES (National Quality Assurance Framework for Higher Education & Research Institutions), IS Audit, ITGC, ITAC, COBIT (introductory), Risk & Compliance, Change Management, ISO 9001, ISO 27001
Modeling & Methods	BPMN, UML, Archimate, EAD, Agile, Requirements Analysis, Functional Specifications (Cahier des Charges), Dashboarding & Reporting (custom-built dashboards)
Tools	BPMN.io, Lucidchart, Draw.io, Canva, PowerPoint, Excel, Power BI (introductory)
Compliance & Security	ICAO Doc 9303, Biometric ID, Law 18-07, RGPD/GDPR, Traceability & Auditability

Education

Engineering Degree in Computer Science 2021 – 2026

National Higher School of Computer Science (ESI Algiers)

Specialization : Information Systems and Technologies

Relevant Courses :

- Data Analysis, Advanced Databases, Business Intelligence
- Information Systems Architecture, Information Systems Security Engineering & Management, Decision Support Information Systems
- Change Management, Quality Assurance, Information Systems Audit, Enterprise Architecture (Urbanization)
- CRM, ERP

Experience

Systems Designer and Developer 2025 – 2026

National Gendarmerie Research and Development Center (CRD-GN) – Final Year Project

- Designed a secure, automated information system for road safety operations, covering roadside checks, biometric identity verification, electronic ticketing, and offline payment processing.
- Ensured compliance with MRTD document verification standards in accordance with ICAO Document 9303.
- Applied personal data protection requirements under Algerian Law No. 18-07 throughout the system design.
- Built operational traceability and auditability into the system as core design features.
- Ensured full alignment with CRD-GN's internal data format standards throughout the system design, by analyzing and annotating the updated Traffic Code introduced under the new road safety law to align system rules with current regulation.

Data Collector Summer 2025

ESI – Employability Study

- Conducted a two-week structured collection of public data covering 1,200 students across 5 graduating classes to study student employability trends.
- Ensured full compliance with personal data protection regulations governing the automated processing of the collected data.

Research Intern Summer 2024

LMCS Laboratory, ESI – Gamification Internship Project

- Completed a research internship at the LMCS laboratory focused on developing a gamification tool for teaching algorithmic concepts using the Godot engine.
- Designed the tool with the objective of making algorithmic concepts more accessible to new learners through smooth, engaging content.

- Validated the tool through live demonstrations to the internship supervisor and the course module head.
- Contributed to a doctoral thesis research initiative on gamification in computer science education.
- Collaborated closely with academic researchers specialized in the field.

Frontend Developer

2025

Freelance – Smart Order Management SaaS

- Developed the frontend of a SaaS platform for the intelligent management of e-commerce orders received via social media channels.
- Built features supporting inventory (stock) management for online sellers and e-commerce merchants.

Team Leader

Summer 2025 and 2026

ESI – Official Baccalaureate Orientation National Center

- Led a 15-person team operating 24/7 for the 4-week duration of the university pre-registration period within the official orientation center.
- Oversaw call-center operations, social media communications, and helpdesk activities supporting Baccalaureate graduates.
- Developed lightweight tools to streamline and simplify the management of daily center operations.
- Served as the direct interface between the operational team and the center's senior management throughout the mission.

Projects

Team Leader and Mobile Developer

Feb – Jun 2023

ESI – Carpooling Mobile Application

- Led a multidisciplinary academic team over three months to design and develop a carpooling mobile application.
- Built the application using Flutter for the frontend and Firebase for backend services.
- Coordinated task planning and technical decisions across the development team throughout the project.

Team Leader and Negotiator

Dec – 2023

Secondary School – Workshop on Introduction to Computer Science

- Led a multidisciplinary academic project to organize a workshop introducing computer science and algorithms to high school students.
- Coordinated and negotiated with the school administration to plan and secure the event.
- Prepared the educational content delivered during the workshop.
- Facilitated the workshop sessions directly with student participants.

Team Leader and Mobile Developer

Sep 2024 – Feb 2025

ESI – Food Delivery Mobile Application

- Led a multidisciplinary academic team over three months to design and develop a mobile food delivery application.
- Built features for ordering, real-time tracking, and delivery management.
- Developed the application using Jetpack Compose, JavaScript, and MongoDB.

Team Leader and Auditor

Dec 2024 – Mar 2025

ESI – Audit and Quality Assurance Project (RNAQES)

- Led a four-month academic audit project applying the RNAQES quality assurance framework.
- Assessed ESI's socio-economic environment against quality and compliance criteria. Coordinated the audit team and consolidated findings into actionable recommendations.
- Presented the audit's conclusions and recommendations to support the institution's quality objectives.

Team Leader, Systems Designer, and Integrator

Dec 2024 – Feb 2025

ESI – Customer Management System using Odoo

- Designed a customer relationship management system tailored to institutional needs.
- Implemented and integrated Odoo's built-in CRM module to support the designed workflows.
- Led the project team from design through deployment.

Team Leader, Systems Designer, and Full-Stack Developer

Feb – Jun 2025

ESI – Oil Drilling Operations Monitoring System

- Led a two-month project to design a system for processing field reports and monitoring oil drilling operations.
- Built interactive dashboards to support operational decision-making.
- Developed the solution end-to-end using Next.js, Django, and Oracle.

- Team Leader, Systems Designer, Auditor, and Developer**
Feb – Jun 2025

ESI – Information Systems Change Management Project

 - Audited an existing information system to identify gaps and improvement opportunities.
 - Designed and developed a digital tool for ESI's IT maintenance service.
 - Led the information system change management process, addressing factors of resistance to change among stakeholders.

Volunteering & Community Engagement

- Speaker**
19 May 2026

ESI & CRD-GN – Seminar : Information Day on Research and Development in Public Security

 - Prepared and delivered a presentation titled "Automated Road Traffic Offence Processing System" during a seminar organized jointly by ESI and the CRD-GN.
 - Presented the system's design objectives, technical approach, and compliance framework to an audience of academic and institutional stakeholders.
 - Took part in a follow-up workshop dedicated to research and development activities in public security.

- HR Manager & Internal Relations**
2023 – 2024

Sport & Entertainment Club (SEC), ESI

 - Managed human resources processes within the club, including member coordination and internal role organization.
 - Oversaw internal relations and communication across the club's leadership team.
 - Supported the continuity of club activities and internal cohesion over two consecutive academic years.

- Volunteer**
2023 – present

Algerian Scholar Award Organization

 - Ongoing volunteer contributor supporting the organization's mission, events, and community outreach initiatives.
 - Assisted in coordinating and facilitating activities promoting educational opportunities for students.

- First Aid Responder**
2025 – present

Ouikaya

 - Certified by Ouikaya in First Aid, covering emergency intervention procedures across a wide range of situations.
 - Provided on-site emergency support and first aid assistance during organized public events.

- Organizing Committee Member**
2024 – 2026

ESI – ESI 55th Anniversary Celebrations

 - Contributed to proposing, studying, and organizing a year-long program of events celebrating the school's 55th anniversary.
 - Coordinated with external sponsors to secure support and align event logistics.
 - Collaborated with partner organizations throughout the planning and execution of the celebrations.
 - Liaised directly with guests across different hierarchical levels, from students to senior institutional officials.

- Invited Guest**
16 Dec 2025

MFEP – Seminar on Gaming in Algeria

 - Invited by Her Excellency Ms. Nacima Arhab, Algerian Minister of Vocational Training and Education, to take part in a seminar on the state of the gaming sector in Algeria.
 - Took part in discussions on the prospects for building a national gaming ecosystem.
 - Contributed to reflections on integrating gaming as a training track within vocational education and training systems.

- Institutional Visits Host**
2025 – 2026

ESI

 - Hosted official visitors from the Ministry of National Defense (MDN).
 - Accompanied Master's-level officer students from the École des Transmissions during their visit.
 - Hosted and coordinated logistics for a foreign delegation, including former senior Senegalese state officials.
