📄 [Zoubir Mohamed Akram](#) 🌐 [Portfolio](#)

Profile

Newly graduated Computer Science Engineer, specialized in Information Systems and Technologies. My hands-on experience spans IS audit, quality management, enterprise architecture, ERP/CRM integration, information security, risk management, and change management, with foundational knowledge in biometric systems and MRTD documents. I am eager to bring these capabilities to companies or consulting and audit firms to drive concrete projects in governance, compliance, and systemic improvement. Rigorous and experienced in leading multidisciplinary teams, I bridge the gap between strategic business needs and technical execution to ensure IT systems are secure, compliant, and catalysts for organizational growth.

Skills

IT Governance & Audit	IS Audit, ITGC, ITAC, Risk Management, Change Management, COBIT (intro), RNAQES
Enterprise Architecture	Archimate, BPMN, UML, EAD, Agile, Requirements Analysis, Functional Specifications
Security & Compliance	ISO 27001, ISO 9001, GDPR/RGPD, Law 18-07, ICAO Doc 9303 (MRTD), Biometric ID
ERP, Tech & Frameworks	Odoo (CRM/ERP), Next.js, Django, Spring Boot, Flutter, Jetpack Compose, Firebase
Data & Databases	Oracle, MongoDB, SQL, DB Modeling, Dashboarding & Reporting
Languages	JavaScript/TypeScript, Python, Java, Kotlin, Dart, C, C++

Education

Engineering Degree in Computer Science 2021 – 2026

National Higher School of Computer Science (ESI Algiers)

Specialization : Information Systems and Technologies

Relevant Courses :

- Data Analysis, Advanced Databases, Business Intelligence, Decision Support Information Systems
- Information Systems Architecture, Information Systems Security Engineering & Management
- Change Management, Quality Assurance, Information Systems Audit, Enterprise Architecture (Urbanization)
- CRM, ERP implementations

Experience

Systems Designer and Developer 2025 – 2026

National Gendarmerie Research and Development Center (CRD-GN) – FYP

- Engineered a secure, automated road safety IS (e-ticketing, biometric ID verification) compliant with ICAO Doc 9303 and Law 18-07, aligning system rules with the updated national Traffic Code.
- Embedded operational traceability and auditability into the core architecture, ensuring 100% alignment with CRD-GN's internal data formatting standards.

Data Collector Summer 2025

ESI – Employability Study

- Analyzed employability trends for 1,200 students across 5 cohorts in 14 days, executing a structured public data collection process in strict compliance with data protection regulations.

Research Intern Summer 2024

LMCS Laboratory, ESI – Gamification Internship Project

- Programmed an interactive Godot-based algorithm-teaching tool, validating concepts via live demos to directly support a doctoral thesis on CS education.

Frontend Developer 2025

Freelance – Smart Order Management SaaS

- Coded the frontend architecture for an e-commerce SaaS platform, enabling online sellers to intelligently process social media orders and track inventory in real time.

Team Leader Summer 2025 and 2026

ESI – Official Baccalaureate Orientation National Center

- Directed a 15-person team providing 24/7 support over 4 weeks, streamlining call-center and helpdesk operations by developing custom lightweight management tools.

Projects

Team Leader & Mobile Developer Feb – Jun 2023

ESI – Carpooling Mobile Application

- Led a cross-functional team for 3 months to develop and deploy a Flutter/Firebase carpooling app, streamlining task planning and technical execution.

Team Leader & Negotiator

Dec 2023

Secondary School – Intro to Computer Science Workshop

- Organized a CS algorithm workshop for high school students, securing administration approval and delivering the full educational curriculum.

Team Leader & Mobile Developer

Sep 2024 – Feb 2025

ESI – Food Delivery Mobile Application

- Managed a team over 5 months to engineer a full-stack food delivery app (Jetpack Compose, MongoDB) featuring real-time tracking and automated delivery workflows.

Team Leader & Auditor

Dec 2024 – Mar 2025

ESI – Audit & Quality Assurance Project (RNAQES)

- Directed a 4-month institutional audit applying the RNAQES framework, assessing ESI's socio-economic environment and presenting actionable compliance recommendations.

Team Leader, Systems Designer & Integrator

Dec 2024 – Feb 2025

ESI – Customer Management System (Odoo)

- Configured an Odoo-based CRM tailored to institutional workflows, steering the 3-month project lifecycle from functional analysis to full deployment.

Team Leader, Systems Designer & Full-Stack Developer

Feb – Jun 2025

ESI – Oil Drilling Operations Monitoring System

- Architected a field report processing system for oil drilling operations, developing interactive end-to-end dashboards using Next.js, Django, and Oracle.

Team Leader, Systems Designer, Auditor & Developer

Feb – Jun 2025

ESI – IS Change Management

- Audited a legacy IT system and developed a digital maintenance tool, executing a change management strategy to resolve stakeholder resistance.

Volunteering & Community Engagement

Speaker

19 May 2026

ESI & CRD-GN – Information Day on R&D in Public Security

- Delivered a technical presentation on the compliance framework and design objectives of automated traffic systems to academic and institutional stakeholders.

HR Manager & Internal Relations

2023 – 2024

Sport & Entertainment Club (SEC), ESI

- Oversaw HR processes and internal relations for 2 academic years, managing logistics and negotiating with sponsors to secure funding for 5+ major events.

Organizer & IT Coordinator

2023 – present

Algerian Scholar Award Organization

- Coordinated IT guest management solutions and VIP relations over 3 years for 5+ major events celebrating Algerian scholars, building a strong academic network.

First Aid Responder

2025 – present

Ouikaya

- Secured on-site emergency medical support as a certified First Aid responder during public events.

Organizing Committee Member

2024 – 2026

ESI – 55th Anniversary Celebrations

- Coordinated sponsor relations and VIP logistics for a comprehensive 12-month program of institutional anniversary events.

Organizing Committee Member

19 Jun 2025

LMCS (ESI) & EPH Ain Taya – IMAIH 2025

- Managed guest reception and attendee flow at the National Library of Algeria for the 1st Colloquium on the Impact of AI in Medicine.
